Version Control Tools & IDE: Git, GitHub, Visual Studio Code, Postman

PROJECTS

URL Shortner

- A URL shortener project typically involves creating a service that takes long URLs and generates shorter.
- These short URLs redirect users to the original, long URLs.

React Notes App

- It is a simple notes app built using React JS .
- You can create, add, and delete notes easily also you can search for notes using the date they were created.

Text To Speak

- The Text-to-Speech Web Application is a user-friendly platform that allows users to enter text into a provided input field.
- The application converts the entered text into speech, providing the user with an audio output of the text.

EDUCATION

Bachelor of Engineering (B.E), COMPUTER SCIENCE

JSPM's Bhivarabai Sawant Institute of Technology and Research, Pune

2021 – 2025

VOLUNTEERSHIP

Social Media Associate Lead

GDSC BSIOTR (September 2022)

- As the Social Media Associate Lead at GDSC BSIOTR, I developed and executed social media strategies to enhance the college's online presence and community engagement.

ACHIEVEMENT

- Actively participated in Hacktoberfest, contributing to open-source projects and enhancing coding skills through collaboration and problem-solving.
- Completed the Google Cloud Program, gaining hands-on experience with cloud computing technologies.
